

# OPHORA™

## BIO-QUANTUM WATER STATION

This completely self-contained, free-standing water station integrates ozone with high-output UV sterilization and offers 10 PPM of stabilized oxygen in every glass. **Ophora water is pure, restructured, ionized, anti-oxidant, alkaline to 8.0 pH, and mineral rich.** Instant chilled or hot water.

### Pure

Our exclusive technology produces Water for Wellness(TM) is the way nature intended it to be. So pure that we remove all known as well as unknown contaminants from source water including 99.99% of difficult to remove pesticides, pharmaceuticals, and trace hormones..

### The Ophora Difference

While many systems filter water, only Ophora systems filter out unwanted contaminants AND oxygenate your water. The water we deliver to the workplace has many outstanding benefits because the workplace is where clarity and productivity are most necessary.

### Benefits

- Removes 99% of known and rarely detected pollutants including pesticides
- Removes pharmaceuticals and trace hormones
- Delivers health-enhancing, oxygenated drinking water

Awarded the gold standard for best tasting purified drinking water at Berkeley Springs International Water Tasting
